New Jersey Institute of Technology awards Presidential Scholarships to full-time transfer students applying to our Bachelor of Science in Engineering Technology programs. The scholarship was established to attract students who may not have the opportunity to further their associate's degree in applied science in their own state. Qualified candidates will receive a waiver of the fee normally assessed non-New Jersey residents, thereby reducing tuition to that of New Jersey residents, (\$13,974 per year in 2011-2012). Scholarship recipients are expected to maintain a grade point average of 3.0 (B) or better. Academic records will be reviewed at the conclusion of each semester.

Scholarship Qualifications

- Completion of A.A.S. degree before beginning studies at NJIT
- Cumulative GPA of 3.0 or higher
- U.S. citizen or permanent resident

Application

There is no special application form required. Students must complete and submit an application for admission to NJIT along with the non-refundable application fee. All qualified applicants will be notified by mail. The application deadline is June 1 for the fall semester and December 1 for the spring semester.
