2. By a motion duly made by Mr. Cistaro, seconded by Mr. Taylor and unanimously approved, the Board approved the public minutes of the meeting of June 6, 2019, with abstentions from those members not in attendance at such meeting.

3. Secretary Stern reported that there were no members of the public registered to speak.

4. BY A MOTION DULY MADE BY MR. BONE, SECONDED BY MR. TAYLOR AND UNANIMOUSLY APPROVED, the BOARD voted to APPROVE THE RESOLUTION TO ADOPT FY 2020 OPERATING AND CAPITAL BUDGETS.

5. BY A MOTION DULY MADE BY MR. BONE, SECONDED BY MR. COHEN AND UNANIMOUSLY APPROVED, the BOARD voted to APPROVE RESOLUTION TO ADOPT FY 2020 SCHEDULE OF TUITION AND FEES.

6. Dr. Bloom gave a report to the Board. This has been a good year for continuous improvement. Our enrollment continues to grow, and we have made significant faculty hires. We also made strides in increasing the numbers of our female faculty. We closed out the 2019 budget with a good cash reserve, enabling us to make payment on the step bond coming due, and dedicate more funds to improving our instructional facilities. We will vote to adopt the lowest tuition rate increase in the history of the university. We are benefitting from good revenue streams, both from VentureLink and conferencing activities over the past six months. We had a record
year for research, with the contributions of NJII. We’ve increased our CRR spending to $24 million, 75% of which is dedicated to instructional facilities. This has been a good year for branding and visibility. Our fundraising has surpassed all goods. We will be hosting the second VOICE conference, with attendance expected to exceed 5,000 attendees from 20 countries, as well as representatives of peer institutions.

7. Mr. Cistaro announced that we have new Board officers for FY 2020. By a motion made by Mr. Cistaro, seconded by Dr. DeCaprio and unanimously approved, the Board voted to appoint the following Board Officers:

   Chair:           Stephen DePalma
   Chair-Elect:     Robert C. Cohen
   Vice Chairs:     Diane Montalto
                    Lawrence Raia
                    Joseph M. Taylor
   Treasurer:       Edward Bishof, Sr.
   Secretary:       Holly C. Stern

Chair DePalma thanked the Board for its confidence. He noted that there are some changes in the Committee membership. All who have submitted preferences will retain those preferences. We will add Mr. DeNichilo and Dr. Baynes to the Academic Affairs and Research Committee. Ms. Montalto and Mr. Cistaro will serve as liaisons to the Board of Overseers Development and Alumni Relations Committee. Mr. DePalma will be issuing a new schedule reflecting the updates.

8. Provost Deek gave a presentation on Annual Academic and Research Assessment. The overview covers three areas: 1- Academics and Program Review; 2- Student Satisfaction and 3- Research. Our Strategic Plan is data-driven. Dr. Deek first focused on a General Education Review, encompassing a review of program components and learning outcomes, to drive lifelong learning potential. He next discussed our degree program review process. In 2014 we had been assessing 20% of our programs that were not subject to the accreditation process. Currently, 85% of programs not subject to an accreditation process have been reaccredited or reviewed in the past five years. Turning to retention rates and average SAT scores, we do a much better job of keeping students here, and their academic profiles are increasing. Retention rates and average SAT’s were broken down by cohorts and gender. The cohort model works; our retention rate is near 100% for the Honors College, and cohort retention rates are generally high, as they provide student support.

Dr. Deek next discussed student satisfaction upon graduation; 86% felt that they were prepared for a career, and 87% felt that they had attained skills that will be useful on a job.

Dr. Deek also discussed NJIT’s 105 research labs, centers and institutes, more than 70 of which were developed since 2014. Our newest institutes include the Institute for Space Weather Sciences, and the Henry J. and Erna D. Leir Research Institute for Business, Technology and Society. Planned Institutes for FY ’20 include the Institute for Data Science (IDS) and the Institute for Materials, Devices and Environmental Research (IMDER). He reviewed the top grants of new faculty, and recipients of the highly coveted faculty career awards. Our
externally funded research and development expenditures continues to grow and we project further growth in external academic research. Dr. Bloom called the Board’s attention to the dinner welcoming new faculty on August 28th, encouraging all to attend and meet the new faculty.

9. Vice President Alexo gave a report on development and alumni relations, referring to the Board materials, with the addition of the final reports for FY 2019. The past year was a good one; we achieved almost all of our goals. Importantly, our commitments exceed the prior five year average. We brought in $14.1 million in cash gifts, adding $6.6 million in new cash gifts for the endowment, which realized a return of $330 thousand. We did not hit our goal for the annual fund (unrestricted gifts). We adopted an official gift acceptance policy. Dr. Alexo highlighted the undergraduate participation rate, and thanked Vice Chair Raia and his wife for issuing a challenge gift. Through this effort, we added 1472 new gifts. In this regard, it is not the amount of the gift that matters, but establishing the act of giving, and it worked. We will see the effect of these efforts in future years.

10. Mr. Bishof reviewed the schedule of Operating Statement Year to Date and Short Term Investments. We had a small surplus at the close of FY 2019, which was applied to various projects. With respect to short term investments, our cash and cash equivalents increased to $115 million. He credited our good results in cash management, which increased by over $5 million.

11. Mr. Christ discussed the Clery Crime Data report, contained in the Board material.

12. Mr. DePalma discussed the schedule of upcoming meetings. He asked that the schedule be populated with the dates of important events, such as graduation and convocation. This year convocation will take place on September 11, 2019.

13. The Chair announced that the next regularly scheduled Closed Session will be convened on Thursday, September 26, 2019 at 2:00 p.m. at Eberhardt Hall Alumni Center Board Room, to discuss personnel, real estate, legal and contractual matters. The following resolution was read and approved by all Trustees present:

WHEREAS, there are matters that require consideration by the Board of Trustees that qualify under the Open Public Meetings Act for discussion at a Closed Session;

NOW THEREFORE, BE IT RESOLVED, that the Board of Trustees shall have a Closed Session to discuss matters involving personnel, real estate, legal and contractual matters on Thursday, September 26, 2019 at 2:00 p.m., Eberhardt Hall Board Room.

The next regularly scheduled Public Session of the Board will take place on Thursday, September 26th, 2019 at 4:00 p.m., Eberhardt Hall Board Room, following the Closed Session of the Board.

14. The public session was adjourned at 4:50 p.m.

5B. APPROVE RESOLUTION FOR ADJUSTMENT OF THE GENERAL CONSTRUCTION CONTRACT FOR THE GITC 3RD FLOOR UNIFICATION OF INFORMATICS (PHASE I)
NEW JERSEY INSTITUTE OF TECHNOLOGY

STATEMENT

RESOLUTION TO APPROVE THE ADJUSTMENT OF THE GENERAL CONSTRUCTION CONTRACT FOR THE GITC 3RD FLOOR, UNIFICATION OF INFORMATICS (PHASE I)

Background:

The Ying Wu College of Computing is one of the fastest growing college’s at the University and is located within the Guttenberg Information Technology Center (GITC). The Department of Informatics is home to a thriving community of information systems scholars and practitioners. In an effort to reorganize and revitalize various spaces within the building and provide effective adjacencies for teaching and research, the unification of Informatics is essential. The renovations to the 3rd floor of GITC will provide an opportunity to continue the necessary improvements to the building that will have a transformative impact on students, faculty and staff alike.

The ongoing renovations for Informatics will be the 1st phase of renovations to the 3rd floor of GITC. The project objectives are to provide modern spaces for student club rooms, the CyperCorps program, seminar room and administrative offices. A very large open student collaboration space is being constructed to encourage student engagement and interaction. The flexibility of large student collaboration space will also provide increased opportunities to host various events and lectures.

In February 2019, the administration began the procurement process utilizing NJIT’s prequalified list of general contractors. Molba Construction was the lowest and most responsible bidder and a contract for general construction was awarded in the amount of $925,700. During the course of construction, it was financially prudent to accept a bid alternate and a change order was required for some additional work. These two changes to the original aware resulted in a contract amount not to exceed $1,200,000, which required Board of Trustees approval.

Implication:

- Adjusting the amount of the contract for general construction will allow the University to move forward and complete all the necessary improvements needed in Phase 1 of the 3rd Floor of GITC, Unification of Informatics.
- The Phase 1 renovation and renewal of the 3rd Floor of GITC, will provide the necessary upgrades to support student collaboration, instruction, lectures, and meetings. The improvements to this area of GITC will have a valuable impact to the Department of Informatics and will be a significant resource for students, faculty, staff and visitors to the university.
- The funds for these expenditures will come from the approved FY20 Capital Budget.

Recommendation:

Grant the University Administration the ability to adjust the overall general construction contract to Molba Construction, the lowest responsible bidder, for a not to exceed cost of $1,200,000.
RESOLUTION TO APPROVE THE ADJUSTMENT OF THE GENERAL CONSTRUCTION CONTRACT FOR THE GITC 3RD FLOOR, UNIFICATION OF INFORMATICS (PHASE I)

WHEREAS, on July 18, 2019 the Board of Trustees of New Jersey Institute of Technology approved the Resolution to Adopt FY2020 Operating and Capital Budgets, and,

WHEREAS, the administration has conducted a procurement process including the requesting of proposals from general contractors previously prequalified with NJIT for general contractor services of new construction and renovations, to determine the best overall value to the University including price and other factors, and,

WHEREAS, after careful consideration of the foregoing factors, Molba Construction has been identified as the lowest responsible bidder, and,

WHEREAS, the administration awarded a lump sum contract for the renovation of the GITC 3rd Floor Unification of Informatics based on the construction plans and specifications developed by Ikon.5 Architects, and,

WHEREAS, to move forward with the project in a timely and fiscally responsible manner, in order to meet the construction deadline, the administration requests the general construction contract for construction and associated materials and equipment be adjusted to a cost not to exceed $1,200,000, and,

WHEREAS, the funds for these expenditures will come from the approved FY20 Capital Budget authorized by the Board of Trustees on July 18, 2019, and

NOW THEREFORE IT BE RESOLVED, that the Board of Trustees authorize the administration to adjust the contract for general construction services to Molba Construction, the lowest responsible bidder, for the purpose of renovating the 3rd Floor of the Guttenberg Information Technology Center pursuant to the final design documents and associated change orders at a cost not to exceed $1,200,000.

5C. APPROVE RESOLUTION TO AWARD GENERAL CONSTRUCTION CONTRACT FOR THE ROOF REPLACEMENT AND REPAIRS AT WESTON HALL
NEW JERSEY INSTITUTE OF TECHNOLOGY

STATEMENT

RESOLUTION TO APPROVE THE AWARD OF THE GENERAL CONSTRUCTION CONTRACT FOR THE ROOF REPLACEMENT AND REPAIRS AT WESTON HALL

Background:
Over the past several years, Weston Hall has experienced numerous roof leaks and water intrusion from the exterior facade of the building. NJIT’s Facilities Services has responded and made numerous repairs to prevent water from entering different parts of the building. The 17,000 square feet of roofing on Weston Hall is past its useful life and needs to be replaced. The exterior caulking, flashings and deteriorated masonry conditions also need to be addressed so that the exterior envelope can be made watertight. Weston Hall is home to the Hillier College of Architecture and Design. The impact of the water intrusion is evident in various studio spaces, shop areas and faculty offices.

The proposed roof replacement and façade repairs will provide the building with a building envelope revitalization. The project objectives are to provide a completely new roofing system, improvements to roof flashings and terminations as well as enhancements to the roof drainage components. Façade repairs will consist of removal and replacement of all window caulking, caulking at control joints and repairs to deteriorated masonry units.

In May 2019, NJIT began exploring the procurement process by utilizing the National Cooperative Purchasing Alliance (NCPA). The NCPA is a leading national government purchasing cooperative working to reduce the cost of goods and services by leveraging the purchasing power of public agencies in all 50 states. NCPA utilizes state of the art procurement resources and solutions that result in contracts that ensure all public agencies are receiving products and services of the highest quality at the lowest prices. The NCPA partners with JP Patti Tecta America, LLC, a national commercial roofing company to provide roofing and façade repairs in our region.

Through this procurement process, NJIT will achieve the best overall value for the roof replacement work and façade repairs using a design build model. In addition, utilizing JP Patti Tecta America, LLC will also provide a unique educational opportunity for the students in the Hillier College of Architecture and Design. The JP Patti Tecta America design team will prepare and present a series of lectures and field observation experiences that will provide experience that most students do not receive until they are practicing in the field. In addition, it will provide students with an understanding of alternative career choices in the architecture field.

The administration seeks to award the contract of general construction to JP Patti Tecta America, LLC for a total not to exceed $1,450,000.

Implication:
- Awarding the contract for general construction will allow the University to move forward with the roof replacement and repairs needed at Weston Hall, an important building for the
Utilizing the NCPA Cooperative Purchasing methodology and JP Patti Tecta America, LLC, students in the Hillier College of Architecture and Design will take part in a series of lectures and field observation experiences that will focus on the following topics:

- Introduction to roofing systems
- Roofing system design and detailing
- Field observation during the various stages of construction
- Project punch list and closeout

Awarding the work now will allow the administration to begin the design build process for the roof replacement work and repairs. The design build process will ultimately result in a streamlined design process, lower unit costs, and faster project delivery than traditional methods.

Funding for the project will be from the approved FY20 capital budget.

**Recommendation:**

Grant the University Administration the ability to award the contract for General Construction to JP Patti Tecta America, LLC, for a not to exceed cost of $1,450,000.

NCPA utilizes state of the art procurement resources and solutions that result in contracts that ensure all public agencies are receiving products and services of the highest quality at the lowest prices.

WHEREAS, after careful consideration of the foregoing factors, J.P. Patti Tecta America, LLC. has been identified as the recommended general contractor, and,

WHEREAS, the administration will negotiate a lump sum fee contract based on the NCPA process for the general construction services for the Roof Replacement and Repairs of Weston Hall, and,

WHEREAS, to move forward with the project in a timely manner, it is recommended that the administration be authorized to award a general construction contract at a cost not to exceed $1,450,000, and,

Board Resolution 2019-XX
5E. APPROVE RESOLUTION TO AUTHORIZE EXCLUSIVE LICENSE OF UNIVERSITY INTELLECTUAL PROPERTY
STATEMENT OF INFORMATION FOR
EXCLUSIVE LICENSE OF NJIT INTELLECTUAL PROPERTY

Introduction:

As part of its Intellectual Property (“IP”) Program, New Jersey Institute of Technology (“NJIT”) assesses the commercial value of its IP to determine the most appropriate avenue to achieve a return on its investment and facilitate the introduction of its innovations into public use. Options include the exclusive licensing of NJIT patent properties.

Nanosepex, Inc. (“NSI”) has expressed interest in acquiring an Exclusive Patent License Agreement (“License”) for the four (4) NJIT IP assets listed below for the life of each patent issued by the U.S. Patent and Trademark Office and/or international patent offices.

As the License is proposed for the life of the patents arising out of the subject IP, it essentially represents a disposition of NJIT property and the Board of Trustees is being asked to approve the same. A “Resolution To Authorize Exclusive License Of University Intellectual Property” has been prepared for consideration.

History and Description of Intellectual Property:

The IP covered by the below patent properties has the potential to produce inexpensive clean water generation from sea and brackish water. Each of the below patent properties has and/or will have a twenty (20) year patent term in the U.S.:

- The first IP asset for licensing is NJIT Invention Disclosure No. 08-029: U.S. Patent No. 9,169,579 issued 10/27/2015 entitled “Carbon Nanotube Mediated Membrane Extraction” (Somenath Mitra and Kamilah Hylton);

- The second IP asset for licensing is NJIT Invention Disclosure No. 10-024: U.S. Patent No. 9,039,900 issued 5/26/2015 entitled “Membrane Distillation: Apparatus and Methods” (Somenath Mitra and Kenneth Gethard);

- The third IP asset for licensing is NJIT Invention Disclosure No. 13-068 DIV: U.S. Nonprovisional Patent Application No. 15/666,093 entitled “Nanocarbon Immobilized Membranes” (Somenath Mitra, Sagar Roy, and Madhuleena Bhadra); and

- The fourth IP asset for licensing is NJIT Invention Disclosure No. 17-023: U.S. Nonprovisional Application No. 16/031,651 entitled “Radiative Heating of Liquids in Desalination and Other Membrane Processes” (Somenath Mitra and Sagar Roy).

With rapidly increasing world population, portable water will be one of the most important technological challenges of this century. The carbon nanotube enhanced membrane distillation process covered by the subject patent properties is a relatively low temperature process where industrial waste heat and solar heating can be used for desalination. Small water heaters such as the natural gas heaters used in homes can also be used to generate high quality drinking water along with what is needed for domestic consumption.

Another major application of the IP covered by the patent properties is in oil and gas drilling. Hydraulic fracturing or fracking is a water-intensive process. A typical frack well uses several million gallons of water over its lifetime and generates a highly saline produced water. With its ability to
handle high salt concentrations, the IP covered by the patents is a viable alternative for treating this waste.

**Background of Nanosepex, Inc.:**

NSI is a NJIT start-up company formed in or about 2012 by Dr. Somenath Mitra, Distinguished Professor, Chemistry Department at NJIT (NSI’s current President). However, more basic research needed to be conducted and the company had not been active until 2017, when it received a Small Business Innovation Research (SBIR) award from the National Science Foundation for $225,000 to further test and develop its core technology of system design and process optimization.

Now, NSI is ready to move forward with product development and is prepared to begin making and marketing new products, in part, with the IP covered by the subject NJIT patent properties. Given NSI’s expertise in carbon nanotube enhanced membrane distillation processes, NJIT believes NSI will be successful in commercializing the technology and facilitating the introduction of the nanocarbon membranes into public use within a reasonable period. As such, NSI is the best candidate to license the subject NJIT IP assets and begin making products. Additionally, authorization for the License will provide future royalty revenues to NJIT that can fund protection of NJIT’s patentable interests in new inventions having promise for future commercialization.

**Current Licensing Offer:**

NJIT and NSI have been in licensing discussions for several years, dating back to 2012, when NSI began entering into several Technology License Option Agreements with NJIT under which NSI paid NJIT license option fees. Now, NJIT and NSI have tentatively agreed upon an exclusive licensing arrangement resulting in this request for Board of Trustee approval for NJIT to enter into the License with NSI. The License requires NSI to use diligent efforts to commercialize the NJIT IP assets to achieve the maximum in licensing payments and royalties to NJIT. Additionally, NJIT will receive the following financial consideration:

- Three percent (3%) royalty on net sales of products made with use of the subject NJIT IP assets;
- Fifteen percent (15%) royalty on sublicensing income (reduced to 8% after the earlier of the 4th year or $10M expenditures by NSI to develop products);
- $15,000 annual payment beginning with the 5th contract year and increasing to $25,000 beginning with the 7th contract year and continuing thereafter; and
- Five percent (5%) equity interest of common stock (non-dilutable through subsequent equity financings aggregating $2M).

Additionally, NSI will pay for all reasonable patent prosecution and maintenance costs related to the technology incurred by NJIT before and after the effective date of the License (subject to deferment in part until the 3rd contract year). NSI will also receive a $15,000 credit toward such costs for prior amounts paid to NJIT under the prior Technology License Option Agreements. Such costs will include attorney fees, prior art searches, preparing and filing patent applications, maintenance fees, etc.

After NJIT’s reimbursement of associated out-of-pocket expenses, if any, the remaining net amount derived from the transaction will be shared with the NJIT inventors pursuant to NJIT’s current Patent Policy. However, royalties received by NJIT from the start-up company will be waived by the inventors so long as they remain employed at NJIT. Such waived share will go to the inventor’s research laboratory/department during such time.
WHEREAS, the Board of Trustees of New Jersey Institute of Technology (NJIT) is empowered to direct and control the disposition of NJIT Intellectual Property if deemed necessary or advisable to carry out the goals of NJIT;

WHEREAS, the Administration recommends the exclusive licensing of certain identified NJIT Intellectual Property to Nanosepex, Inc., for a royalty percent of net product sales containing the Intellectual Property, reimbursement of patent costs, an equity interest of common stock, plus a royalty percent of sublicensing income;

NOW THEREFORE BE IT RESOLVED by the Board of Trustees of New Jersey Institute of Technology that the proposed exclusive licensing of the Intellectual Property (Reference Numbers 08-029, 10-024, 13-068 and 17-023) by NJIT is hereby approved; and

THEREFORE BE IT FURTHER RESOLVED by the Board of Trustees of New Jersey Institute of Technology, that the Vice President of Business Incubation, Chief Commercial Officer is hereby authorized to execute any and all agreements or documents on behalf of NJIT to consummate the licensing transaction.
