IMPORTANT PLAN INFORMATION

NJIT procedure prohibits students with balances from registering. However, students who are on Payment Plans and who have made every installment payment on or before each installment due date, but may still have a future installment due, will be permitted to register during Priority Registration period, according to Registrar's Office posted schedule.

Students will lose the privilege of accessing Priority Registration according to the posted Registration schedule while on a payment plan if: Any payment is returned by the bank on any installment or any payment has been LATE* on any scheduled installment.

*Late is considered to be any payment made after the scheduled installment date. While the payment is still considered late, a grace period is provided prior to assessing the late payment fee.
