

Job Offer Acceptance Policy

By utilizing the CDSlink system, I agree to adhere to the following policy put forth by Career Development Services at NJIT: I understand that an acceptance of an employment offer, especially when in writing, must be final and should be treated as a binding agreement. Upon accepting an offer, I will notify CDS and remove myself from further consideration for competing opportunities. This applies to all opportunities (full-time, intern, co-op, etc.) whether or not they are sourced through CDSlink, On-Campus Interviewing, Career Fairs, or other outside sources.

Students found to be in violation of this policy will be barred from further use of the CDSlink system. Please note that you can always contact your career advisor if you need guidance on how to properly respond to a job offer. Proper business ethics and professionalism of our students and alumni is a crucial factor in maintaining the partnerships that we build with employers. Thank you for your understanding and cooperation in this matter.
