

This form is designed to initiate entrance into the BS/PhD program and to identify courses that will count for both the undergraduate and PhD degrees. It is to be completed by the Undergraduate Advisor and PhD Program Director and must be returned to the Office of Graduate Studies, Fenster Hall, Suite 140 for processing. Students will still need to submit a separate application through Graduate Admissions for admittance into a PhD program. **Only these pre-approved courses can be double-counted and will be charged at undergraduate tuition rates assuming a B or better grade.**
