SAT and ACT Preparation Program

The Center for Pre-College Programs at NJIT will be offering a SAT/ACT Preparation Program for students currently in 8th - 12th grades. The SAT and ACT are the standardized tests for college admission and measure students’ preparedness for colleges and universities, improving the critical thinking skills that are essential for success after high school. The purpose of the SAT and ACT tests is to measure a high school student's readiness for college, and provide colleges with one common data point that can be used to compare all applicants. Overall, the higher you score on the SAT and/or ACT, the more options for attending and paying for college will be available to you.

Why prepare for the SAT and ACT tests in 8th grade? Starting SAT and ACT preparation in in 8th grade will not just help you become an expert on the SAT tests, but it will also enhance your study skills and academic knowledge, and will help you develop organizational skills in your 8th grade classes as you make the transition into high school. Preparing for the SAT and ACT in 8th grade can be hugely beneficial for your academic understanding and performance in school.

With ever-increasing competition to get into the best universities, the SAT and ACT Preparation Program utilizes an intensive non-traditional methodology, techniques and strategies that will help students become “smarter test-takers.” Most colleges and universities will accept scores from either the SAT or ACT, and do not favor one test over the other.

The SAT and ACT Preparation Program will be taught by certified instructors who will introduce students to new concepts and will provide valuable instruction in each SAT and ACT content area. The SAT and ACT classes will cover the following academic areas English, Critical Reading/Writing and Mathematics and the best methods to approach questions in all SAT and ACT areas. This comprehensive approach ensures that students not only learn strategies to answer every exam question but will improve students’ problem solving abilities, mathematical, literacy and writing skills that are needed for academic success in college.

Program Schedule—The classes will be held on Saturdays from 9:30 am until 12:30 pm. The following four (4) sessions will be offered with five (5) classes per session:

- **Fall Session**—October 20th, October 27th, November 3rd, November 10th, and November 17th
- **Winter Session**—January 26th, February 2nd, February 9th, February 16th, and February 23rd.
- **Spring Session I**—March 2nd, March 9th, March 16th, March 30th, April 6th.
- **Spring Session II**—April 13th, April 20th, April 27th, May 4th, May 11th.

Program Cost—Application Fee = $30 plus Tuition, $300 per Session.

Registration Deadlines—

- Fall Session - October 12th
- Winter Session - January 21st
- Spring Session I - February 25th
- Spring Session II - April 8th

If you are interested in enrolling in the SAT and ACT Test Preparation Program, please send the completed registration form, application fee and tuition payment by the deadline indicated above.
