One of the first goals put forward by President Altenkirch when he came to NJIT in 2002 was to develop a sense of community among alumni and friends as well as faculty, staff and students, “to keep them engaged and to ensure that NJIT is a fun place to be.” Division I athletics, the emergence of the Campus Center as the hub of a vibrant campus life, and the establishment of new university traditions have begun to establish a renewed NJIT family spirit.
Student creativity and talent was put to work this spring for the benefit of the students in the Cafeteria Revival Competition. Coordinated by the NJIT Student Senate, Gourmet Dining Services, Resident Society of Aspiring Architects, the Architecture Student Union and the NJIT Campus Center, the project invited NJIT’s students to submit plans to upgrade the ambience on the All-Flex side of the cafeteria. Winners were Donna Miller ’09 and Jason Feist ’08. The renovations, estimated at a cost of $45,000, are being funded by the Student Senate. The winners also received a $1,000 prize from the Senate, $500 in flex credit from GDS, and a free year at the Game Room, courtesy of the Campus Center.
