Policy on Use and Storage of Devices known as "HOVERBOARDS"

Due to safety concerns associated with "Hoverboards" that have been raised by the Consumer Product Safety Commission (CPSC) and the potential impact to the safety of our university community, New Jersey Institute of Technology has imposed a ban on use of these devices.

Effective Tuesday, January 19, 2016 and until further notice, "Hoverboards", also known as self-balancing scooters and hands-free Segways will not be permitted to be operated or stored on campus or in any NJIT building.

Further, these devices have been added to the Residence hall prohibited items list effective January 19, 2016 meaning they may not be brought inside any residence hall, including the Greek Village.

Students are subject to sanctions under the University’s Code of Conduct if found to be in violation of this ban.

12 SPRING BREAK SAFETY TIPS

1. **Book a hotel in a central location to limit the need to drive.** The closer your hotel is to the beach, downtown or other areas where you plan to spend most of your time, the less likely you'll be to get lost or to be involved in a car crash. Avoid unlicensed taxi cabs by asking your hotel, restaurant or club to summon a ride for you, and if in doubt, pass up the car and wait for another one.

2. **Avoid going out and/or traveling alone at night.** There really is safety in numbers, and you and your friends can watch out for each other. Walking alone or even clubbing alone can make you a vulnerable target to people whose intentions are less than pure. Even a two-minute walk can be dangerous when you're alone at night - especially if you've been drinking.

3. **Never go off with a stranger.** Spring break can be a great time to meet new people, but that doesn't mean you should leave your group of friends to spend time with people you don't know. Even if your new acquaintances just want to walk down the street, stick to your group or at least bring along someone you know and trust.

4. **Limit alcohol consumption to a reasonable level.** Overdoing it on alcoholic drinks impairs your judgment, making you more susceptible to accidents and crime. Pace yourself, and avoid drinks with high alcohol content, like shots. Not only is it safer all around, you'll feel a lot better in the morning. If you plan to drink, always designate a sober companion in your group who can make executive decisions about everyone's safety.

5. **Watch for signs of predatory drugs.** When a drink is spiked with a drug like Ambien or Rohypnol ('roofies'), most people will show symptoms like extreme wooziness, confusion, slurring speech and difficulty standing, even if they haven't had much to drink.
6. Remember that sun exposure and alcohol don’t mix. Spring break often involves lots of time lounging in the sun and in hot tubs, both of which can intensify the effects of alcohol in the body. Take it easy, and remember to slather up with sunscreen with an SPF of at least 15, even when it’s cloudy.

7. Use appropriate safety gear for sports and other recreational activities. Whether you’re driving a scooter, skateboarding or just riding on a boat, protect yourself with any necessary equipment like helmets, knee pads and life jackets.

8. Visit the ATM in groups. Friends can keep a lookout while you’re withdrawing cash to lower the risk of robbery. If you must go alone, be sure to cover the keypad when you enter your pin number, just in case someone is watching or the ATM is equipped with an illegal skimming device that steals card information.

9. Keep your money safe. Carry a limited amount of cash at a time as well as a single credit card. Never flash wads of cash at the ATM or in other public places. Tell your credit card company that you’ll be traveling before you leave to avoid holds on your account due to suspicious activity.

10. Don’t take chances with illegal drugs. For some, the relaxed environment of spring break getaways can make it seem like no big deal to carry recreational drugs in and out of foreign countries, but possession of illegal drugs can get you into serious trouble, both at home and overseas.

11. Know what to do in an emergency. It’s easy to forget that in foreign nations, the phone number for emergency response is not 9-1-1. A State Department website called Students Abroad provides a list of these numbers along with detailed tips for health emergencies, evacuations, natural disasters, crime victims and assistance to U.S. citizens arrested abroad.

12. If you’re traveling abroad, sign up online for the U.S. Department of State’s Smart Traveler Enrollment Program (STEP). The STEP program enables the State Department to contact you in case of a family emergency, or to notify you of a crisis near your travel destination. You can also download a Smart Traveler iPhone App that provides additional tips and information.

FURNITURE TAKING UP TOO MUCH SPACE?

---

did you know...

that you can move all of the beds from two rooms, and keep them in one room?
If you are the victim of sexual violence, you are not alone. Sexual violence happens to people of all genders and sexual orientations. Your safety is our primary concern. The following are suggested steps to take after an incident.

Be Safe. If you are in immediate danger contact Public Safety at 3111 from a campus phone or 973-596-3111 from a non-campus phone. If you are not on campus, contact 911 for your local police. Go to a safe place and seek immediate support from a trusted friend, family member or university staff member.

Get Medical Help as soon as possible. Public Safety Can Provide Transportation

(A) University Hospital and Newark Beth Israel Hospital. The victim has a right to immediate medical evaluation and evidence collection. Evidence collection does not commit the victim to filing a criminal complaint: it can be held for ninety days while the victim considers options. It is advisable not to bathe, shower, douche or change clothes.

   (a) In New Jersey, emergency room fees related to a sexual assault are waived if the victim files a police report.
   (b) If the victim does not file a report, the fees are likely to be covered by the Crime Victims Compensation Fund,
   (c) NJIT’s Student Health Insurance may cover the fees up to the limits of the insurance policy for those who have purchased it.

(B) Student Health Service at NJIT

If 96 hours (4 days) have passed since the incident, you may obtain confidential medical care on campus at the Student Health Service located at Fleisher Athletic Center.

Get Confidential Emotional Support. Confidential emotional support and counseling begins immediately if you go to the SANE Center for a medical exam within 96 hours (4 days) of the incident.

Free support is also available through Counseling and Psychological Services (CAPS), located on the second floor of Campbell Hall (205).

File a Title IX Complaint. A federal law known as Title IX protects all NJIT students, faculty and staff by prohibiting sexual discrimination and harassment in all forms. If you wish to file a complaint of sexual misconduct, contact NJIT’s Title IX Coordinator or Deputy Coordinator at 973-596-3466 or visit the Dean of Students Office located on second floor of Campus Center (Room 255).

If you know a victim of sexual misconduct: Encourage that person to read this document, seek medical care and talk to a trained counselor or sexual assault advocate. Be clear that you support that person. Most importantly, consider and protect that person’s privacy. Be sensitive to what they are going through as part of the healing process.

FIRE ALARMS

ASSUME THEY ARE REAL!
YOU MUST LEAVE EVERY TIME!

- IF YOU ENCOUNTER SMOKE WHILE EXITING, DROP, STAY LOW, AND CRAWL TO THE NEAREST EXIT.

WE HAVE WIRELESS!

(ist.njit.edu/connectivity/wireless.php)

NJIT has wireless networking throughout the NJIT campus.

The network includes simpler to use and more secure authentication methods. The new authentication methods are being introduced through two additional wireless “Network Names” or SSIDs. All wireless SSIDs are listed here in recommended order of use:

1. "NJIThousing" - Only for residential students - this should be the highest for them.
2. "NJITsecure" - Should be highest for all non-residential students, faculty, and staff, and the second highest for residential students.
3. "NJIT" - Guest Usage or for temporary devices only, should be low or "forget" it.
4. Public WiFi - The NJIT campus is surrounded by public WiFi networks which you may have access to.

These networks should be set with a preference order lower than the NJIT wireless networks. This will help you stay connected to NJIT’s wireless network.

The new Residence Hall Quick Start Guide is available online. The link is http://ist.njit.edu/telecom/reshall/quickstart.php
