

Storage Facilities

Residence Life does not offer storage. The following is a list of some local storage facilities which you may find useful. They are listed in no particular order. If you decide to use a storage facility, here are some things to keep in mind.

1. Bring your own lock – many facilities do sell locks but they are much cheaper to purchase on your own.
2. Seal all items in boxes or storage containers, taping any openings around folds.
3. If possible, visit the facility before moving your belongings to make sure it is suitable and clean.
4. Inquire about the hours available to access your items.
5. Many places charge an administrative fee and monthly insurance fee, be sure to clarify this detail.
6. Make sure the space you rent is the right size for your belongings and if you will need climate controlled storage.
7. Ask if they offer any student discounts, or have any ongoing specials.

| Company | Space Size & Cost per month | ADDITIONAL FEES/DETAIL | SPECIALS |
