

# **Medical Informatics Technology: Community College Articulation Agreements**

Agreements between several Community Colleges and NJIT have been drawn up which guarantee that students with a specific degree from the Community College will be accepted in this program (i.e. Computer Technology) with all, or most, of the credits acquired in the lower division being transferred. Some "deficiencies" may still exist in some cases, that is one or two specific prerequisite courses (see prerequisites below) from the lower division are missing and will be taken at NJIT during the first school year along with the other courses of the curriculum. It is in many cases permissible to take the courses necessary to overcome the deficiencies in another institution (e.g. community college), with permission from the advisor.

The GPA (Grade Point Average) is computed solely from the courses taken at NJIT. Note that courses with a grade lower than C are not transferable.

## **Articulation agreements have been drawn up with:**

### **Bergen Community College**

- Business Department - Associate in Applied Science
- Networking Administration
- Web Development and Management
- Information Technology

### **Department of Science and Mathematics - Associate in Science**

- Computer Science

### **Brookdale Community College**

- Network Administration
- Programming
- Web Master Administration

### **Essex County College**

- Computer Information Systems
- Microcomputer Systems Applications
- Applied Computer Science

### **Mercer County Community College**

- Information Technology - Associate in Applied Science
- Programming Option
- Programming and Networking Option
- Network Engineering Technology Option

- Website Development and Administration Option
- Computer Science

### **Middlesex County College**

- Computer Science
- Computer and Information Systems - General Option
- Computer and Information Systems - Network Administration and Support Option

### **County College of Morris - Computer Information Systems**

- Business Programming (3501)
- Microcomputer Technical Support (3502)
- Scientific Programming (3500)
- Passaic County Community College
- Information Technology
- Computer Science

### **Ocean County College - Computer Studies**

- Computer Science Option - Associate in Science
- Computer Programming Option - Associate in Applied Science
- Networking Support Specialist Option - Associate in Applied Science

### **Passaic County College - Medical Informatics**

- Medical Informatics - Associate in Applied Science

### **Raritan Valley Community College - Computer Information Systems**

- Microcomputer Career Program - Associate in Applied Science
- Computer Programming - Associate in Applied Science
- Computer Networking - Associate in Applied Science

### **Union County College**

- Business - Computer Information Systems
- Computer Science / Data Processing
- Engineering - Computer Science
- Information Systems Technology
- Liberal Arts - Computer Science / Mathematics

**Note that formal ratification for some of these agreements is pending.**
