

VISITING CAMPUS

We encourage you to come visit the NJIT campus, where you can take a student-led tour, attend an information session, meet professors, talk with current students, and learn more about admissions and financial aid. An interview with an admissions counselor is recommended, but not required.

To make arrangements for your visit:

- Sign up online at www.njit.edu/admissions/visit/campustours.php.
- Call us at 973.596.3300 or toll-free at 800.925.NJIT

For driving directions, information on public transportation, and maps of the campus and the city of Newark, please visit: www.njit.edu/about/visit/

VISITING NEWARK

If you are visiting from out of town, check out:

- Places to dine: www.downtownnewark.com/eatsanddrinks.php

See what cultural activities are scheduled during your visit to Newark:

- Downtown District events: www.downtownnewark.com
- Dreyfuss Planetarium: www.newarkmuseum.org/planetarium.html
- Go Newark: www.gonewark.com
- Jazz and live music: www.wbgo.org
- Meadowlands Sports Complex: www.meadowlands.com
- Newark Arts Council: www.newarkarts.org
- New Jersey Performing Arts Center: www.njpac.org
- Prudential Center: www.prucenter.com
- Symphony Hall: www.newarksymphonyhall.org
- The Newark Museum: www.newarkmuseum.org

See whether the local sports teams are in action:

- Newark Bears (Atlantic League baseball): www.newarkbears.com
- New Jersey Nets (NBA basketball): www.nba.com/nets
- New Jersey Devils (NHL hockey): www.newjerseydevils.com

VISITING NEW YORK CITY

After your tour of campus and Newark, you may want to stop by the Big Apple:

- American Museum of Natural History: www.amnh.org
- Apollo Theatre: www.apollotheatre.com
- Broadway: www.broadway.com
- Bryant Park: www.bryantpark.org
- Carnegie Hall: www.carnegiehall.org

- Whitney Museum: www.whitney.org

"Although NJIT is a small school, it has all the resources available at larger universities, and because of its size, each student is focused on 10 times more."

—Monica El-Raheb, second-year architecture major

Life at the edge . . .

the edge . . . in Location

Where you learn can be just as important as what you learn. With the resources of two vibrant cities within minutes of campus, the New Jersey Institute of Technology adds distinct advantages that further your education, your personal growth and your future. (Not to mention providing endless ways to spend your time outside of class.)

Located in the renaissance city of Newark, New Jersey, NJIT's campus is small and self-contained, yet in the center of a thriving metropolitan area filled with exceptional learning experiences, internship and career opportunities, arts, culture, food, music, sports and more.

With 5,263 undergraduates, the NJIT community is friendly and close-knit, making it easy to get involved in student organizations, play sports, meet new people and launch new friendships.

Beyond campus, our location takes learning that's usually limited to two dimensions and transforms it into a three-dimensional experience you can see, hear and feel, no matter what your major. If you're interested in architecture, for instance, you might study such landmarks as the Chrysler Building and the Empire State Building on paper; the same day you can walk through them and see the way the light plays through the windows. You can also tap into NJIT's wide network of corporate and industrial partnerships, taking part in co-ops and internships with some of the world's most prominent and innovative companies. So make the most of your education: make sure you're where the action is.

"NJIT is a great place to come to school. I've loved my time here. It is close to everything and offers so many jewels hidden in an urban environment. It's a very close-knit community of people."

—Martha Rozynski, senior,
information technology major

NJIT's self-contained campus and green spaces welcome students to study, socialize and gather for events such as a performance by one of NJIT's 20 cultural-related student organizations.

From the Starbucks to the Murray Center for Women in Technology to the residence halls, students keep in touch by logging onto the NJIT network wirelessly throughout campus.

The signature Campus Center, completed in 2004, serves as a popular meeting place outside, inside and on the rooftop terrace, where you can check out the solar panels that supply much of the building's power.

NJIT: AT THE CENTER

Within blocks of four other institutions of higher education and 22,000 other college students, in the midst of the up-and-coming city of Newark, and 10 miles from downtown Manhattan, NJIT is ideally situated. Here are just a few ways to take advantage of the location:

- *Learn by experience:* Get up close and personal with the industries that abound here, from architecture firms and engineering and pharmaceutical companies to hospitals and high-tech start-ups.
- *Seize the opportunities:* The metropolitan area surrounding NJIT drives trends and serves as a financial, business and technological capital to many worlds. And New Jersey has the nation's highest concentration of pharmaceutical, high-tech and biotech companies. Gaining experience here puts you in good stead, wherever your goals may take you.
- *Have fun:* The more than 70 student organizations, 15 varsity teams and dozens of events each semester are just the beginning. Multiply that by about 1,000, and you'll have some sense of the possibilities available beyond campus.
- *Go global:* NJIT is one of the nation's most diverse campuses, located in one of the world's most diverse metropolitan areas. So you can expand your international horizons without having to break out your passport.

Students come here from around the globe, making for a vibrant community on campus and contributing to NJIT's spot in the top 10 universities nationwide for diversity.

Newark and New York City

NJIT is a tale of two cities and then some. First there's Newark, the country's third oldest major city, whose renaissance is attracting national attention. Then there's New York City: midtown Manhattan is 15 minutes from campus. Together, the two cities offer a convenient and remarkable array of academic and career resources—and fun.

You can see signs of Newark's rebirth on virtually every corner. The New Jersey Performing Arts Center, the state's newest and largest cultural hotspot, draws more than half a million visitors each year. New Jersey's symphony orchestra and opera company make their home in the city. A \$30 million baseball stadium, blocks from campus, opened in 1999, and the 17,500-seat Prudential Center/Newark Arena, a new home for the New Jersey Devils ice hockey team, opened in 2007. A growing number of corporations are building here, and new restaurants and art galleries are popping up. People are moving into new condos and townhouses—they want to live in this city that's growing more exciting every week. New York City adds to the vitality with hundreds of museums and galleries, restaurants and clubs, and events for every minute of the day. It's easy to get around both Newark and New York City. With subways, trains, buses and taxis, public transportation is safe, reliable and widespread.

TODAY'S NEWARK: A CITY REINVENTING ITSELF

- **Growing:** By 2010, about \$14 billion will have been invested in new buildings, including corporate offices and upscale residences.
- **Connected:** Newark is one of the nation's most computing-enabled cities, with high-bandwidth and fiber-optic cables and industrial-grade power lines. An Intel-sponsored study ranks Newark among America's top 25 "Most Unwired Cities" based on the availability of wireless access points.
- **Green:** The designers of New York's famed Central Park also created seven of Newark's parks, including Branch Brook Park, whose springtime cherry blossoms rival the world-famous ones of Washington, D.C.
- **Corporate:** Headquarters in downtown Newark include Prudential, PSE&G, Verizon New Jersey and Horizon Blue Cross & Blue Shield of New Jersey; MBNA recently built a new regional center here.

"Everything you need—food, movies, New York City—is located within 10 or 15 minutes of here. And it's really easy to get everywhere. There's a lot to do."

—José Ramon, senior, computer engineering major

Newark's skyline continues to change and expand as more corporate offices, townhouses, restaurants and sports arenas go up.

SPORTS IN THE CITIES

NJIT is minutes away from one of the highest concentrations of professional sports teams in the country, including:

- New York Giants (NFL football)
- New York Jets (NFL football)
- New Jersey Nets (NBA basketball)
- New Jersey Devils (NHL ice hockey)
- New York/New Jersey Red Bulls (MLS soccer)
- Newark Bears (professional minor league baseball; stadium is within walking distance of campus)

Hungry? Head for the Ironbound, a Newark neighborhood close to campus and known for its great Portuguese and Brazilian food, music and dancing.

At the Bears and Eagles Riverfront Stadium, an easy walk from campus, you can watch professional minor league baseball for about the price of a movie. "The Den," as it's warmly known, is home to the Newark Bears, as well as to NJIT Highlander baseball.

NEW YORK CITY BY THE NUMBERS

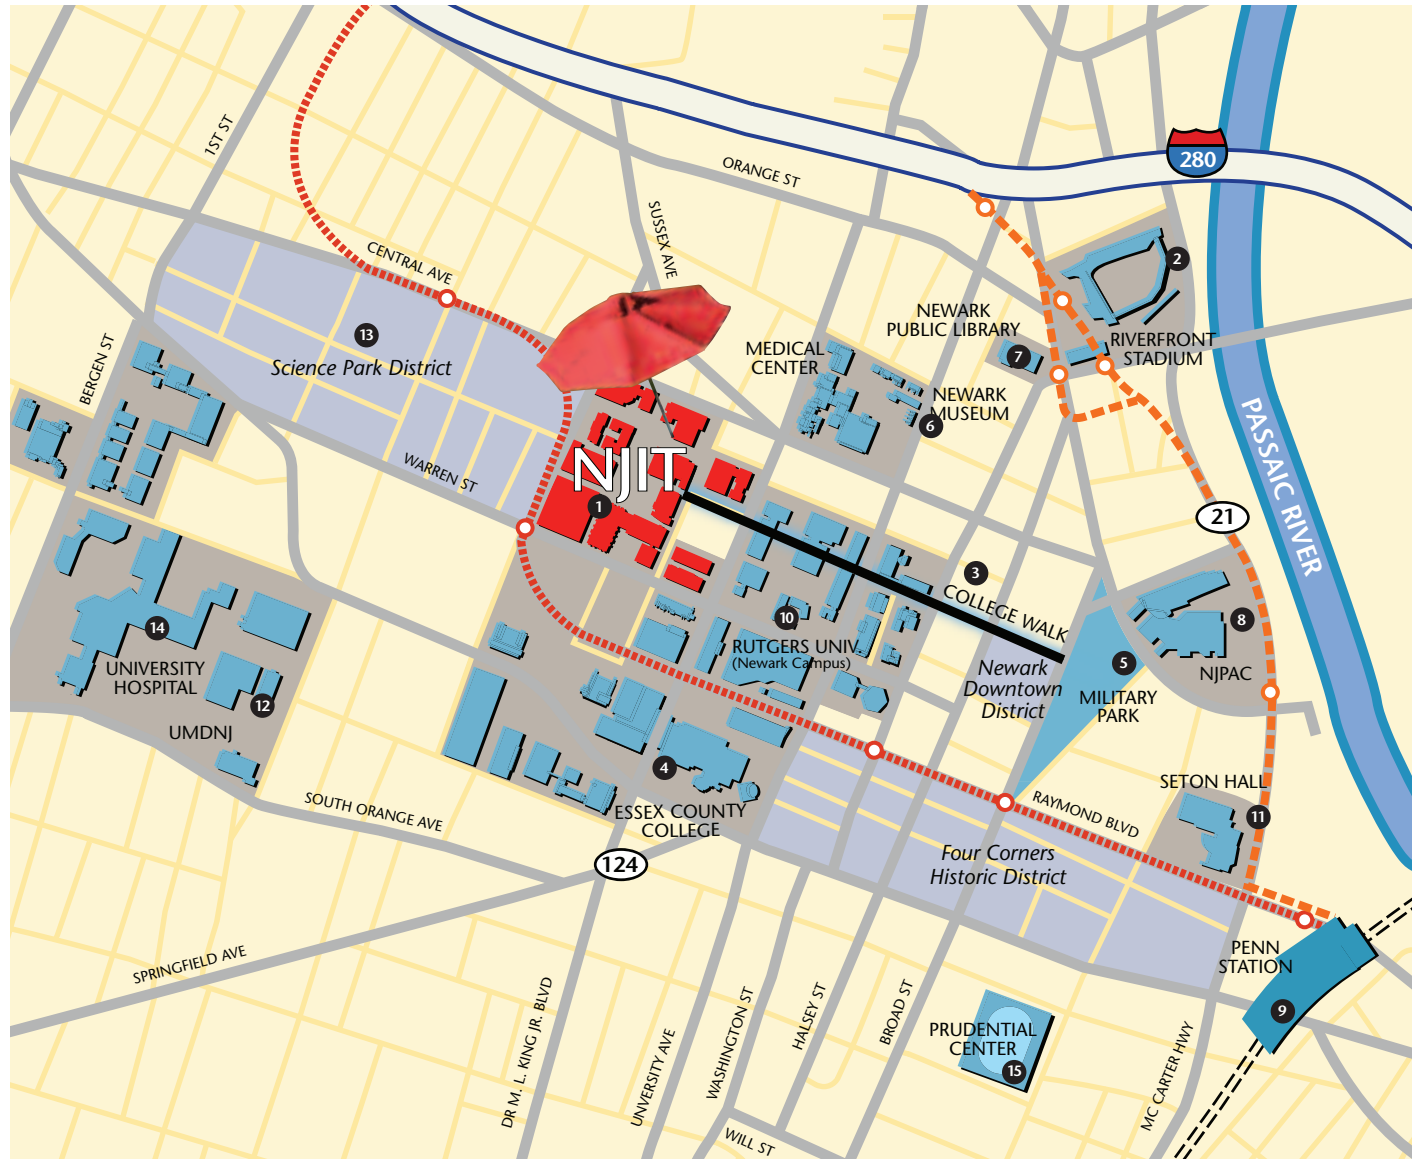

- New York City has 578 miles of waterfront, more than 5,700 miles of streets and highways and 753 bridges and tunnels.
- Macy's on 34th Street is the world's largest store, with 2.1 million square feet of space and more than 500,000 items.
- The world's largest architectural model is at the Queens Museum of Art. It shows New York City, with 895,000 structures at a scale of 1 inch to 100 feet.
- Each year, more than 40,000 location shoots for TV shows, films and other projects keep the city filled with lights, cameras and action.
- Construction on the world's largest Gothic cathedral, the Cathedral Church of St. John the Divine in Manhattan, began in 1892—and still continues today.
- At 4,260 feet, the Verrazano-Narrows Bridge connecting Staten Island and Brooklyn is so long that the towers are a few inches out of parallel to accommodate the curvature of the earth.
- If you eat out every night, it'll take you close to 50 years to try every one of the city's 18,000 restaurants.

If you're looking for a quick getaway from the city, New Jersey's shore is only an hour away. Student groups also organize skiing, boating and hiking trips and other outdoor adventures throughout the region.

University Heights

The 30,000 students at NJIT, Rutgers-Newark, University of Medicine and Dentistry of New Jersey, Essex Community College and Seton Hall Law School fill the University Heights neighborhood with brainpower and energy—and the feeling of a college town.

There's lots to take advantage of in the neighborhood. Stroll College Walk, the secure, well-lit community path that leads from NJIT's campus, through or near the other campuses, and ends close to the 12-acre performing arts center. Go a little farther and you can cheer on the Newark Bears minor league baseball team at the Bears and Eagles Riverfront Stadium (NJIT's baseball team plays here, too). Take your pick of cultural fare: take in a concert, listen to the symphony, watch an opera, a dance performance or a play; check out the art at the half-dozen or so galleries. Pick up some fresh produce at the farmer's market in Washington Park. Delve into New Jersey's history at the Historical Society or Newark Museum, whose newest galleries were designed by noted architect Michael Graves. Watch the stars at the planetarium. Go to the movies. Read a book in the state's largest public library.

You're likely to meet students from other campuses in the University Heights neighborhood through cross-registration, collaborative research, theatrical productions with Rutgers-Newark and, of course, through friends of friends.

"NJIT brings a variety of students together. There is something here for everyone, and the people you meet are so many and so diverse."

—Zakariya Abbasi, electrical engineering major

The neighborhood keeps getting better. Here are some of the exciting projects in the works: NJIT's Greek Village with clustered housing for fraternities and sororities; the Digital Century Center Building at the heart of the Science Park; and a \$73 million apartment community for area college and university students. The \$375 million Prudential Center, which opened in fall 2007, is home to the New Jersey Devils professional hockey team, and NJIT's men's and women's basketball teams play several games there each year.

- 1 **NJIT:** The 45-acre campus is convenient to everything.
- 2 **BEARS AND EAGLES RIVERFRONT STADIUM:** This 6,200-seat stadium, opened in 1999, is home to the Bears minor league baseball team and NJIT Highlander baseball.
- 3 **COLLEGE WALK:** Walk this safe, well-lit path to downtown.
- 4 **ESSEX COUNTY COLLEGE:** More than 25,000 people enroll in classes each year at the 22-acre campus.
- 5 **MILITARY PARK:** Cool statues and farmer's market through October.
- 6 **NEWARK MUSEUM:** 80 galleries of art and science, plus a planetarium.
- 7 **NEWARK PUBLIC LIBRARY:** NJ's largest public library and an architectural gem.
- 8 **NEW JERSEY PERFORMING ARTS CENTER:** 12-acre site with 2,750-seat and 500-seat theatres features internationally known music, dance and theatre.
- 9 **PENN STATION:** Amtrak, NJ Transit, PATH and subway trains offer easy access to New York City.
- 10 **RUTGERS-NEWARK:** Cross-register at the 37-acre campus of 10,000 students; also home to an important jazz collection.
- 11 **SETON HALL LAW SCHOOL:** Nearly 1,500 students pursue law degrees here.
- 12 **UMDNJ:** Specializes in the health sciences; includes medical and dental schools enrolling 2,300 students.
- 13 **UNIVERSITY HEIGHTS SCIENCE PARK:** NJIT is taking the lead in developing these 50 acres and 1 million square feet of high-tech start-ups and labs.
- 14 **UNIVERSITY HOSPITAL:** The teaching hospital of UMDNJ.
- 15 **PRUDENTIAL CENTER:** The newly opened sports and entertainment arena has more than 17,000 seats.

the edge . . . in Campus Life

NJIT students are unusually goal-oriented, hardworking and ambitious. But they also know how to balance work and fun. Coming here from 33 states and more than 100 countries, with a range of backgrounds and life experiences, traditions, cultures, food preferences and hobbies, they make the campus a vibrant and friendly place.

And NJIT does everything possible to make the campus a comfortable and welcoming place to live, learn and relax—because you tend to do your best work when resources are plentiful and life is convenient.

NJIT has spent more than \$83 million revamping, improving and adding new buildings. One of the newest buildings is the Campus Center, which now serves as a hub for students and faculty members. Here you can load up on caffeine at Starbucks, grab a snack, blow off steam in the game room or bowling alley, catch up with friends, study, nap, or go to a student organization meeting. Come crunch time before finals or midterms, there's likely to be free back massages or free snacks to get you through the long hours.

The Murray Center for Women in Technology offers a friendly, comfortable environment to work, socialize, or just relax.

Stress relief and silliness on campus comes in all shapes and sizes.

NJIT kicks off each academic year with two days of fun including scavenger hunts, "The Price is Right," barbecues and more.

"NJIT's many student organizations and its good quality of life are a huge and important boost to me as a commuter. The Campus Center has all I need to work, play, eat and relax."

—Richard Chen, science, technology and society major

Virtually every corner of campus offers wireless access, making it easy to stay in touch with friends and professors. It's one reason why NJIT was named one of the top 25 most connected campuses in 2006 by the *Princeton Review* and *Forbes.com*.

WHAT'S HAPPENING ON CAMPUS

Throughout the year, parties, wacky competitions, concerts, and more fill the NJIT calendar. A few highlights:

- **Get back in the swing:** NJIT starts the fall semester off right with Highlander Days, a weeklong celebration with a carnival, an NJIT-style "The Price is Right" game show, an outdoor movie and ice cream on the Green, comedians, tours of attractions in Newark and New York City, volleyball and frisbee golf tournaments, tech games with cash prizes, and more.
- **Compete like a Highlander:** In October, students, their families and alumni come together for NJIT Day. Show off your game development and playing talents during the Electronic Game Expo; toss a caber (a 150-pound cardboard tube, a take-off of a Scottish tradition) in the Highlander Games; see if you really can build a catapult or miniature golf set-up out of nothing but junk during the Junkpile Wars, take on faculty and staff in a fierce tug of war.
- **Ham it up:** NJIT and Rutgers-Newark collaborate on theatrical productions; auditions are open to students in any major. Some of the productions are directed, designed and written by students and performed at NJIT's 425-seat Jim Wise Theatre and at Bradley Hall Theatre at Rutgers.

Tricycle races are just part of the fun during NJIT Day, when students compete in all kinds of zany contests and enjoy barbecues, soccer games and a battle of the bands.

A SAFE AND SECURE CAMPUS

NJIT is an urban campus, yet it maintains a self-contained feel with the green spaces that dot its 45 acres. The 24-hour security patrols, on foot, bicycle, motor scooter and car, keep a close eye on everything and have earned the praise of students and faculty members alike. Desk attendants in the residence halls provide security around the clock.

Residential Life

Living on campus adds another dimension to the NJIT experience. It helps you learn to live on your own after graduation. And it's convenient: you can roll out of bed and, within minutes, be at class, the gym, the Campus Center or the library (bedhead optional).

There's something about living in a community that allows you to get to know people better, form deep friendships and understand more about people from different cultures and backgrounds. Living on campus also lets you practice decision-making and time-management skills in a safe and nurturing environment.

NJIT's professional staff, plus trained upperclass students who serve as resident assistants (RAs), help resolve conflicts, point you to resources and plan such events as ice cream socials, dance parties, study review sessions, poetry readings and international cooking fests.

Living options include traditional residence halls, 15 fraternities and seven sororities and living-learning communities that bring together like-minded students interested in, for example, arts and entertainment, healthy lifestyles, the honors curriculum or electrical and computer engineering.

As more students move on campus, NJIT is creating new housing and planning a Greek Village (for fraternities and sororities) and an apartment community in a joint effort with other area colleges.

"Your ability to thrive at NJIT is only limited by your willingness to become involved."

—David Roux, computer engineering major, applied mathematics minor

With more than half the freshmen living on campus, NJIT is becoming a residential campus. Students live in residence halls with air conditioning and connections for high-speed Internet access, phone and cable TV.

MAKE FRIENDS, MAKE A DIFFERENCE

Meet new people. Explore your interests. Discover new passions. Attend a lecture on something different. At NJIT, it's all here for the taking.

- *Join a club:* Through more than 70 student-led organizations, students come together, united by common majors or career goals, by the countries where they grew up, and by their interests in everything from martial arts to theater to art. For the most current list of groups, go to www.njit.edu/v2/activities/organizations.html.
- *Laugh, play, have fun:* Among the hundreds of campus events each year: lectures from nationally known scientists, scholars and innovators; cultural events; musical performances; parties; and sometimes, just plain silliness. The Student Activities council plans fun events such as comedy night, an air hockey tournament (winner gets to keep the table), trips to Broadway shows and sports, coffeehouses, concerts, an egg hunt, a kick-ball tournament and a foam party. See what's happening this week at <http://calendar.njit.edu>.
- *Make a difference:* NJIT's Community Connections serves as a clearinghouse with volunteer opportunities on campus and throughout the area. There are wide-ranging options in both Newark and New York City with nonprofits in education, the arts, human service and activism, to name a few. The Service Learning Program lets you combine community service with your studies. There's even community service work-study, allowing you to work in a nonprofit.
- *Learn to lead:* From student government to student organizations to athletics, you'll find many opportunities to develop your leadership skills. NJIT also offers a special program leading to a certificate in leadership.

Residence halls offer cable TV, phone and Internet capabilities, plus the chance to become part of a friendly community.

Students find creative ways to squeeze in fun in schedules filled with classes, labs, internships, research projects and campus events.

Athletics

NJIT is ramping up the competition on the athletic field, reclassifying its intercollegiate athletic program to the highest level, NCAA Division I. Five teams are eligible for NCAA postseason championships already, and all 19 of NJIT's intercollegiate programs will be championship-eligible in 2009-10.

All of the teams play Division I schedules, putting the NJIT Highlanders on the same field with their peers at well-known colleges and universities throughout the country. NJIT teams have competed as far west as Washington state against the Washington Huskies and as far south as Miami, Florida, against the Miami Hurricanes. Two teams have won the national championship in their respective sports the same season they faced NJIT (Maryland men's soccer in 2005 and Penn State men's volleyball in 2008). In recent years, NJIT varsity teams have been contenders in postseason play, and individual student-athletes have earned all-star recognition at the state, regional and national levels.

In 2007-08 NJIT hosted six basketball games in the inaugural year of the downtown Newark Prudential Center, home of the National Hockey League's New Jersey Devils, with plans to host more games in "The Rock."

The NJIT baseball team plays all of its home games in the 6,200-seat Bears and Eagles Riverfront Stadium, home of the Highlanders and the minor league professional Newark Bears.

NJIT women's basketball more than doubled its wins total in 2007-08 over the previous season.

Women's soccer finished 4-1-1 in its last six contests of the 2007 season. The team plays on campus on Lubetkin Field, a lighted artificial turf field with seating for more than 1,000 spectators.

The Highlanders, who posted a win over nationally ranked San Diego State in San Diego in September 2007, play a top schedule. Here they are celebrating a goal that gave them a 1-0 lead against powerful Rutgers.

MEN'S VARSITY SPORTS

- Baseball
- Basketball
- Cross-country
- Fencing
- Indoor track and field
- Outdoor track and field
- Soccer
- Swimming
- Tennis
- Volleyball

WOMEN'S VARSITY SPORTS

- Basketball
- Cross-country
- Fencing
- Indoor track and field
- Outdoor track and field
- Soccer
- Swimming
- Tennis
- Volleyball

"NJIT has a great balance between fun and work. You will always find someone you can relate to. I like the diverse environment and the close-knit community."

—Deepti Sanjai, '06, biology major, tennis and fencing athlete

FACILITIES FOR ATHLETES OF ALL ABILITIES

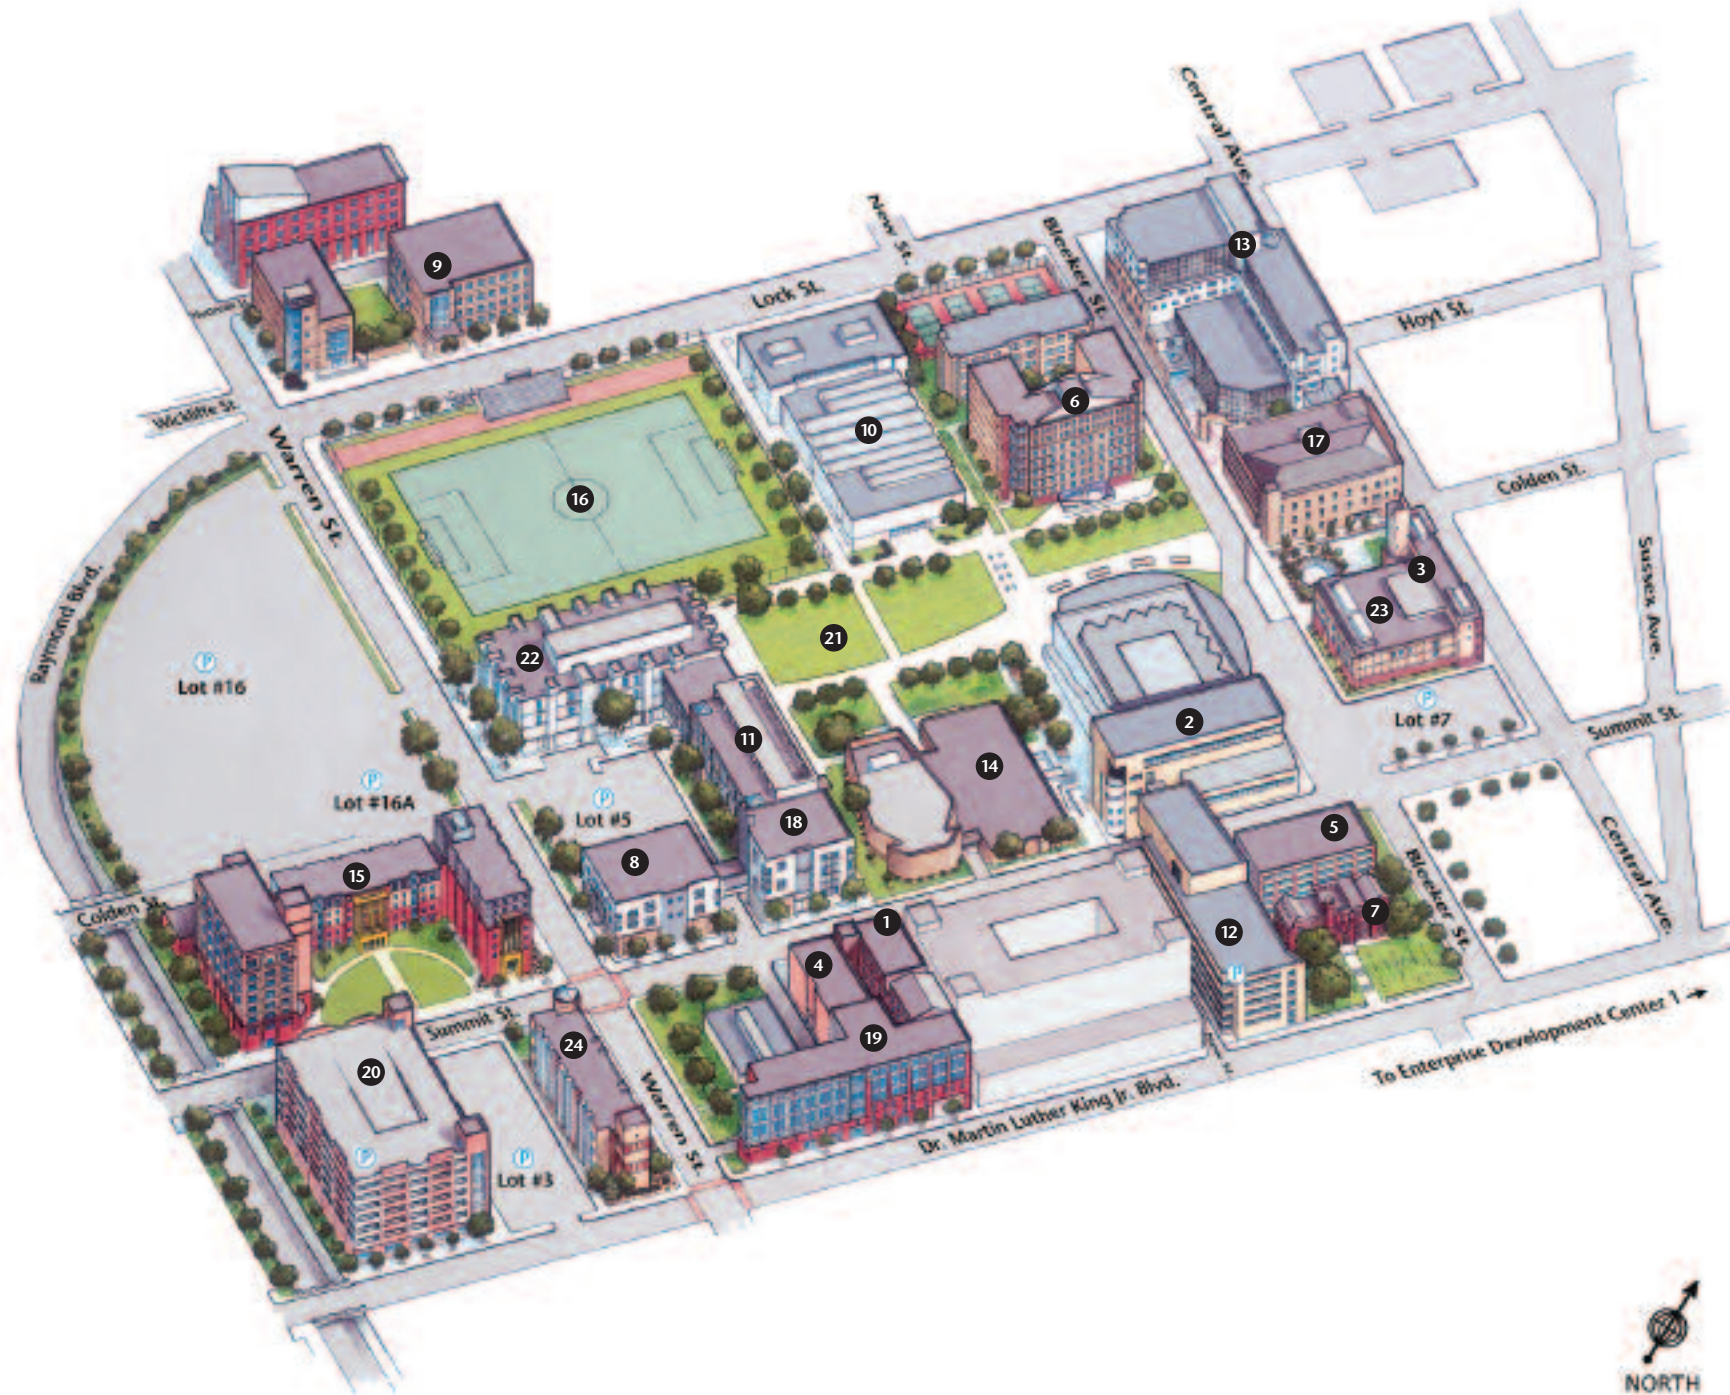

NJIT's athletic facilities are open to everyone, whether you're looking to break the team record, achieve a personal best or just work off some stress. The Estelle and Zoom Fleisher Athletics Center and Lubetkin Field offer:

- Six-lane swimming pool
- Racquetball courts
- Fitness center with computer-controlled biking equipment, Cybex resistance units and hammer strength equipment
- Weight rooms
- Indoor running track
- Gym that seats 1,500
- Tennis courts
- Volleyball court
- 1,000-seat stadium
- Martial arts/fencing center

NJIT men's basketball hosted Rutgers (shown) in the downtown Newark Prudential Center in December. NJIT hosted six men's and women's games at "The Rock," home of the National Hockey League New Jersey Devils, in 2007-08.

NJIT's Campus

- 1 **CAMPBELL HALL/STUDENT SERVICES:** With offices for the Educational Opportunity Program and Career Development, it's almost one-stop shopping for student services.
- 2 **CAMPUS CENTER:** This 2004 building is the heart of the campus with a rooftop garden, places to eat (including Starbucks), bowling alleys, a game room, the bookstore, student organization offices, the Dean of Student Services office, and the Murray Center for Women in Technology.
- 3 **CENTRAL AVENUE BUILDING:** Home to the School of Management and the 160,000-volume Robert W. Van Houten Library.
- 4 **COLTON HALL:** Department of Civil Engineering's labs, offices and classrooms, plus a super-sophisticated GPS antenna on the roof.
- 5 **CULLIMORE HALL:** College of Science and Liberal Arts' classrooms and offices; the departments of mathematics, humanities, and history.
- 6 **CYPRESS/REDWOOD RESIDENCE HALLS:** Home to 700 freshmen and sophomores with double rooms (Redwood), suites (Cypress) and high-speed Internet access.
- 7 **EBERHARDT HALL/ALUMNI CENTER:** Built in 1857, this registered historic site serves as the alumni center.
- 8 **ECE BUILDING:** Offices, classrooms, and labs for the Department of Electrical and Computer Engineering.
- 9 **ENTERPRISE DEVELOPMENT CENTERS:** Houses start-up companies as part of NJIT's business incubator program.
- 10 **ESTELLE AND ZOOM FLEISHER ATHLETIC CENTER:** Swim (or learn to kayak) in the pool, swing a racquet, lift weights, get a workout, practice or compete on varsity teams, intramurals or in club sports from cricket to bowling.
- 11 **FACULTY MEMORIAL HALL:** For electrical engineers, this is where the action (and reaction) is with cryogenics lab, electron microscope, CAD lab, and every other floor with more engineering labs.
- 12 **FENSTER HALL/ADMISSIONS:** The NJIT building that every prospective student visits at least once, since the Office of Admissions is here. In addition, there is Albert Dorman Honors College, the Department of Biomedical Engineering, and administrative offices including the Office of the President.
- 13 **GUTTENBERG INFORMATION TECHNOLOGIES CENTER:** There's a lot in this \$30 million building, from the factory floor facility with flexible manufacturing and plastic processing labs to the College of Computing Sciences, Newark College of Engineering, Center for Manufacturing Systems and Multi-Lifecycle Research Center.
- 14 **KUPFRIAN HALL:** Includes the University Learning Center and the 425-seat Jim Wise Theatre, site of productions created by NJIT and Rutgers-Newark students.
- 15 **LAUREL/OAK RESIDENCE HALLS:** Upperclass and graduate housing. Laurel Hall was designed by world-renowned architect Michael Graves.
- 16 **LUBETKIN FIELD:** Features professional-grade artificial surface for the varsity soccer teams, intramural teams and physical education classes. There's also seating for 1,000 and a walking track.
- 17 **MECHANICAL ENGINEERING CENTER:** Mechanical Engineering Department, plus one of the largest site-built solar energy structures in the Northeast.
- 18 **MICROELECTRONICS CENTER:** Sophisticated research technologies reside here, allowing researchers to work on micro-engineered devices such as integrated circuits and silicon chips.
- 19 **SCHOOL OF ARCHITECTURE:** Nicknamed "lantern-on-a-hill" for the way it glows when students pull all-nighters.
- 20 **STUDENT MALL/PARKING DECK:** Head to the mall for lots of your practical needs—computer lab, bursar, registrar and financial aid, along with parking for 1,300 vehicles with a high-tech security system.
- 21 **THE GREEN:** It lives up to its name as a grass-filled spot where students gather for volleyball, Frisbee, naps, conversation, relaxation and outdoor concerts and movies.
- 22 **TIERNAN HALL:** T is for transportation, research facilities and labs equipped for studying leading transportation projects, membrane separations, biotechnology, and more.
- 23 **VAN HOUTEN LIBRARY:** Includes more than 160,000 volumes, 1,000 hard-copy journals, digital access to more than 10,000 journals, plus plenty of study areas and lounges.
- 24 **YORK CENTER FOR ENVIRONMENTAL ENGINEERING AND SCIENCE:** The nation's largest university-based hazardous waste management facility, the center conducts important research in pollution prevention and remediation.
