2011

Spaniards do not make castles in Spain... or do they?

Things you heard about Spain are true:

1200 year-old cathedrals, castles along with dancing, tapas, night life, museums, street markets, wine-tasting, sunbathing beaches for relaxing, etc. It is true that this is all around.

But there many other features that you will discover by visiting our modern, progressive and innovative universities in cities with more than 2000 years of history. Just let us show you.

This course will improve your Spanish and give you an insight into Spanish culture and the Spanish way of life that will make you want to return again and again.

THE COURSE

Classes and activities from 4th to 22nd July 2011

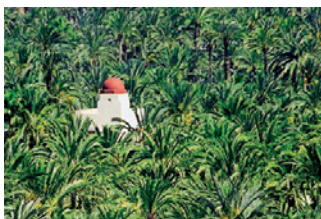

- Spanish language classes with cultural and social activities
- Contemporary Spanish Culture
- Spanish Business Correspondence
- At 5 Universities

A minimum level of Spanish is desirable
Minimum Age: 18
