Jordan Hu '89

M.S. Computer Science

Founder and Chief Executive Officer
Risk Val Financial Solutions, LLC

Jordan Hu is founder and chief executive officer of RiskVal Financial Solutions, LLC. The company's primary focus is creating and running top-tier fixed income and credit derivative front office trading analysis and risk management systems. Hu started RiskVal as a

pioneer in Software as a Service (SaaS) fintech firm in 2001. Prior to RiskVal, he served as chief executive officer of K&L Management Consulting, a company that provided research and IT consulting services. Other past positions held include vice president of fixed income arbitrage trading desk at Citigroup, vice president of fixed income arbitrage trading desk at Salomon Brothers, and vice president of fixed income research at Goldman Sachs. He started his career in Wall Street in 1989 with Salomon Brothers, where he served as vice president of business technology. He serves as chair of the National Tsing Hua University North America Foundation and director of the Taiwanese Chamber of Commerce of New York. Born on 1/2/1962, Hu received his B.S. degree in Applied Mathematics from National Tsing Hua University in 1984 and M.S. degree in Computer Science from NJIT in 1989.
