

# **LANGAN**

## **ENGINEERING & ENVIRONMENTAL SERVICES**

**H**eadquartered in Northern New Jersey since 1970, Langan employs over 1,100 professionals among over 30 regional offices in New Jersey, New York, Connecticut, Pennsylvania, West Virginia, Ohio, Virginia, Florida, Texas, Colorado, Arizona, and California. Langan provides an integrated mix of engineering and environmental consulting services in support of land development projects, corporate real estate portfolios, and the energy industry.

As a New Jersey-based firm, Langan has thousands of projects in the state and have forged long-lasting relationships with a number of industry leaders and clients, including New Jersey Institute of Technology. Langan has provided a multitude of services for the university's expansion including the Wellness and Events Center; Life Sciences Building; and Campus Gateway. In addition, Langan has been the go-to consultant for hundreds of redevelopment projects in Newark. Its engineers and scientists are familiar with the city's subsurface conditions, utilities, and regulatory policies.

Langan boasts over 70 alumni from NJIT and continues to be a stalwart for student advancement at the university. The firm provides a number of scholarships as well as intern opportunities for current students, and regularly contributes to programs and causes that help advance NJIT's academia. In addition, a number of staff serve on NJIT boards. Currently Langan's CEO/President, David Gockel, serves on the Board of Overseers.

Lastly, Langan has partnered with NJIT to perform laboratory-scale treatability studies through the Center for Natural Resources Development and Protection. This unique partnership has Langan collaborate with NJIT's faculty and students to design innovative and practical remediation systems.
