

# Chrome River SNAP App for iPhone and Android

Chrome River's free SNAP app enables EXPENSE users to quickly and easily capture and upload receipt images right when the expense occurs. Users simply snap a photo of the receipt using the app and it will be uploaded directly to their Receipt Gallery and the Offline tab of the eWallet for use the next time they access Chrome River. SNAP may also be used to upload images taken with another app on the device.

- Download **CR SNAP** from the App Store or the Google Play Store
- Photos taken with Chrome River SNAP are not stored in the device's default photo gallery, so they do not mix with personal photos.
- Once photos are uploaded to the Receipt Gallery, they are automatically deleted from the device, freeing up storage space.
- Only **JPG, PNG** and **HEIC/HEIF** formats are supported.
- Files must be **less than 10 MB**. Additionally, the system will cancel any uploads that take more than 60 seconds. If this occurs, you will need to retry the upload when you are on a Wi-Fi or high-speed connection.

For a Quick-Start Video with step by step instructions on how to setup and use **CR SNAP** go to the HELP menu in Chrome River and type **CR SNAP** in the search bar.

The screenshot displays the Chrome River application interface. At the top right, there is a dark grey header with a '+ New' button and a user profile icon labeled 'Maria La Lima'. Below this, a vertical menu is open, showing options: 'SELECT USER' (with a checkmark next to 'Maria La Lima'), 'Settings', 'Platinum Interface', 'Help' (highlighted with a red arrow), and 'Logout'. The main content area features the NJIT logo (New Jersey Institute of Technology) and a 'Welcome to Chrome River' message. Below the welcome message, there is a 'Getting Started' section with a list of tasks: 'Attend Training - If you have not attended training, please refer to the Notices/Updates section below for training sc...', 'Setup user profile', and a bulleted list: 'Personal Settings – Add additional email address', 'Preference Settings – Mileage deduction of your daily work commute', and 'Delegate Settings – Add delegate to create, edit, and submit your expense reports on your behalf'. At the bottom, there is a 'Notices/Updates' section.
