

INSPIRING YOUNG MINDS FOR COLLEGE ACCESS AND SUCCESS IN

SCIENCE, TECHNOLOGY, ENGINEERING AND MATHEMATICS (STEM)

Professional Development in Forensic Science

Join the **2024** Forensic Science Professional Development Cohort. Work with other high school science teachers to strengthen your teaching of forensics.

Our 10-Day, On-Campus Program features:

- Hands-on professional development in Forensic Biology, Chemistry and CSI techniques
- Curriculum mapping to customize learning to your students' needs
- Designing lab and other specialized lessons to support learning transfer
- Completion qualifies you to offer NJIT FRSC 201 for dual credit*
Presented in a collaborative model praised by previous participants!

You Need to Know
