

Modes of Instructional Delivery at NJIT¹

Online: Delivery of instruction in which all course activity can be **completed online** through the learning management system. There are no required face-to-face sessions but students are expected to follow a week-by-week schedule as outlined in the syllabus. Work is typically done in an asynchronous mode and students can complete the coursework without coming to campus. Note: some instructors may require occasional synchronous online meetings or proctored exams.³ (*sometimes referred to as eLearning*)

¹ Contact hours are independent of delivery method and defined in the course catalog.

² Definitions are aligned with OLN's definitions <https://onlinelearningconsortium.org/updated-e-learning-definitions-2/>

³ See <http://www.njit.edu/online/current-students/faq/> for more information about proctored exams.
