Past/imminent public disclosure

Yes

Date: _____

No

Screening Summary

	Highest				Lowest	Missing
	5	4	3	2	1	0
MARKET POTENTIAL Factors To Consider: target market, market size, growth potential of the relevant market, and projected market penetration, etc.						
COMPETITION Factors To Consider: advantages, disadvantages, and distinguishing features of the invention, etc.						
MARKET NEED Factors To Consider: the unmet commercial need that the invention addresses, whether the development of the invention was supported by a grant or a contract, and any interest from target companies, etc.						
COMMERCIALIZATION Factors To Consider: how long and how much money will it take to develop the invention into a commercial product or method, whether additional university resources could improve the prospect of commercialization, etc.						
IP STRENGTH Factors To Consider: the novelty of the invention based on a patentability search, the relationship, if any, to related intellectual property, and any pre-existing rights associated with the invention, etc.
