Each hall has a professional staff member living in the residence hall for added support and are readily available to assist you.

Each hall has an office that has the following staff:

- Office Assistant – admin for the hall office
- Resident Assistants – live on the floors and are a resource for residents / do programming and crisis response
- Central Office Staff – this office consists of Admin, Associate Directors and the Director of Residence Life. They oversee the day-to-day operations of the department and provides additional support to each hall as needed.

A meal plan provides a cost-effective, convenient way for students to enjoy campus dining. Each meal plan comes with Meal Swipes. Some also come with guest swipes and the opportunity to load dining dollars onto your ID.

A meal swipe is an easy way to get a meal. You are allowed one meal swipe for each meal period: breakfast, lunch, and dinner unless you have plan J; see the next page for details.

Dining dollars work just like cash. They can be used at any campus dining location, any time. If you need a quick snack or beverage any of the many on-campus eateries, dining dollars are the go-to option.

Dining Dollars do rollover from the Fall to Spring semesters. Unused meal swipes do not rollover from semester to semester. Dining dollars expire at the end of the academic year.

- First and second year students (by credit hour) living on campus must purchase a meal plan as part of their contract. They can select from plans A - E.
- Rates are per semester
- The rates advertised are for each semester during the 2021-2022 academic year
- Dining locations and options are subject to change

The Online Room Selection website can be accessed via the housing application. You will need to enter your UCID and password in order to access Self Service and participate in the room selection process. After logging on, you will see the main menu screen, which provides an overview of a student's current housing. This screen includes information about your current assignment, any future assignments, any current or future roommates and suitemates. This screen will also indicate the status of any future roommate request or any future room selection processes that you are entered into including your lottery date/time.

The menu located on the left will allow you to reserve your current room (if available); or if your priority time has arrived, you may select any of the available rooms. In addition, you can request a roommate or suitemate.

Note: Once you select your room online you will notice that the MyHousing page only shows your fall 2022 assignment. The software is formatted by semester, so your room assignment for the spring 2023 will automatically roll-over.
Select Applications & Forms on the left hand side to see which applications are available for you to select. To participate in the Online Room Selection Process select - Housing Application - Current Student (Fall 2022). Complete the application and submit it. You will receive an automatic confirmation on the Self Service site as well as one sent to your NJIT email account.

FILLING OUT THE HOUSING APPLICATION

It's free to apply!
Residence Life and the Albert Dorman Honors College are continuing the housing priority process for 2022-2023 that guarantees housing to incoming first-year Honors scholars, prioritizes and increases the number of second-year ADHC housing placements, and strengthens NJIT’s ability to recruit top students, particularly female applicants.

Honors Housing is dependent upon ‘good standing’ as defined by ADHC administration which includes successful completion of service hours, colloquia requirements, the absence of conduct history, and a minimum 3.2 cumulative GPA.

All continuing students requesting on-campus housing must also apply for a priority number via room selection process regardless of their desired hall. Continuing scholars will be informed if they will be placed in Honors Hall prior to the start of the open room selection process. Continuing scholar applicants meeting good standing will be entered into an Honors Hall Room Selection process using a random number generator to select the students offered Honors Hall space. Honors Scholars not placed in the Honors Hall will have the opportunity to select alternate on-campus housing in Honors overflow in Laurel, Laurel non-Honors overflow, Oak, or Greek Village using their lottery number.

Continuing scholars offered ADHC may request a roommate provided their requested roommate(s) is also issued an ADHC placement. Scholars who are not offered a space in ADHC may request to be placed on a wait list should one become available. “Squatting” or returning to the same space is not available for students who are selected to reserve a room during the Honors Hall Room Selection process.

<td>Priority numbers are assigned on several criteria. The following areas are given point totals and added to your total priority number, class standing, and judicial standing. You will be assigned a point total. Since there could be a number of students with the same point total the system will generate random priority numbers based on your total priority number. For example, if there are 20 students with a priority point total of 5, those students will receive a random priority number within that grouping.</td>

<td><strong>WHAT IF I CANNOT GO ONLINE DURING MY OPEN ROOM SELECTION PRIORITY DATE/TIME?</strong></td>
<td>We recognize that NJIT students are very busy, and that you may not be able to be online at your designated priority date/time. However, because of the ability to conduct the Room Selection Process online, you may sign up for a room/suite anytime after your appointed time has arrived and select from any room that may be available. Please note that some students may not be able to access the room selection site from off-campus due to firewalls. Please make sure that you are able to do this from off campus before you plan on being away during room selection.</td>
