Why

FOOD WASTE

Should Matter to You...

- Valuable Resources and Energy Wasted
  4% of Energy, 20% of Land, and 25% of Water are used to make food that is wasted.
- Increased Methane Emissions
  CH. is a greenhouse gas (about 30x more powerful than CO₂). Increased emissions amplify the effects of global warming.
- High Economic Costs
  Approximately ONE TRILLION dollars lost per year due to food waste.

Please help us reduce food waste by filling out this quick survey!
