## The South Florida Brownfields Endurance Rally

NJIT TAB participated in the Brownfields Endurance Rally at the South Florida Regional Brownfield Symposium on June 7, 2018 in Sebring, Florida at the Chateau Elan Conference Center. The goal of the Brownfields Endurance Rally was to encourage communities to apply for EPA grant funding. The rally also served as a forum for both past grantees and consultants to showcase brownfield projects in the South Florida area and provide helpful tips and tricks towards navigating the redevelopment process to the South Florida community.

The past grantees that participated in the workshop were from the Port of Tampa Bay, The City of Ocala, and the Central Florida Regional Planning Commission. The panel consisted of consultants and environmental and redevelopment professionals from Cardno, Terracon, PPM, Consultants, and the Treasure Coast Regional Planning Council.

Approximately 50 people attended the workshop. The audience consisted of community leaders and government officials from the South Florida area.
