## **NJIT TAB joins BCONE to Conduct Virtual Workshop on Brownfields Redevelopment in Connecticut**

NJIT TAB continued its long-standing collaboration with the Brownfields Coalition of the Northeast (BCONE) with the conduct of a virtual workshop focused on Connecticut's brownfields redevelopment. Held on October 7, 2020, the webinar featured speakers from

Connecticut's Department of Energy and Environmental Protection, Connecticut's Department of Economic and Community Development, and NJIT TAB.

The purpose of the webinar was to present Connecticut's brownfield program, discuss funding and liability relief, showcase success stories, and present resources available to communities.

NJIT TAB presented the TAB Program and discussed ways in which NJIT has provided assistance to Connecticut's communities since 2008.

The audience of about 40 people was a mixture of state and municipal government officials, nonprofits, developers, consultants, and attorneys.
