NJIT TAB joins BCONE to Conduct Virtual Workshop on Brownfields Redevelopment in Vermont

NJIT TAB continued its long-standing collaboration with the Brownfields Coalition of the Northeast (BCONE) with the conduct of a virtual workshop focused on Vermont's brownfields redevelopment.

Held on October 8, 2020, the webinar featured speakers from

EPA Region 1, Vermont Department of Environmental Conservation, the Two Rivers-Ottauquechee Regional Commission, and NJIT TAB.

The purpose of the webinar was to provide an overview of the federal and state brownfields programs and resources available to spur interest in the redevelopment of Vermont's brownfields.

NJIT TAB presented the TAB Program and discussed ways in which NJIT has provided assistance to Vermont's communities since 2008.

The audience of about 40 people was a mixture of state and municipal government officials, nonprofits, developers, consultants, and attorneys.
