“NJIT TAB conducts Brownfield 101 via Webinar for North Carolina Communities”

NJIT TAB, alongside EPA Region 4, North Carolina Department of Environmental Quality, and The Piedmont Triad Regional Council Brownfields Program conducted a “Brownfield 101” webinar on May 13, 2020.

The “Brownfields 101” webinar centered on the intricacies of the brownfield redevelopment process, the EPA Brownfield Grant process, and tips for preparing EPA Brownfield Grant proposals.

NJIT TAB and partners at the workshop also covered the following topics:

- Definition of brownfields;
- Brownfield redevelopment impact and benefits for the community;
- Overview of the brownfield assessment, remediation, and redevelopment processes;
- Examples of brownfields that have been successfully redeveloped;

NJIT TAB facilitated the webinar, developed the agenda, and served as a speaker for the event. Approximately 140 participants joined the webinar. The audience consisted of municipal officials, non-profits, and consultants.

The webinar served as a unique opportunity for participants to interact with EPA amidst the COVID-19 pandemic and gain valuable information for the upcoming grant solicitation.
