NJIT TAB Takes Opportunity in Jacksonville to Get the Word out in Region 4!

NJIT TAB conducted a breakout session titled “How Can We Help You? The NJIT TAB is Now in Region 4” at the 2nd Southeast Brownfield Conference held in Jacksonville, FL on October 18 and 19, 2016. The session included an overview of the NJIT TAB program; who is eligible for assistance; who comprises the TAB team; available services; and examples of past NJIT TAB projects. The focus of the conference was to promote collaboration between regulators, brownfield practitioners, and interested parties throughout Region 4. NJIT TAB took the opportunity at the conference to spread the word regarding the assistance available to eligible entities within the region as well as sit face to face with state and tribal representatives at the half day 128(a) State & Tribal Response Program Workshop held immediately following the conference on October 18th. At this workshop NJIT TAB was able to personally meet the majority of

state brownfield coordinators and begin forming the relationships critical to successful brownfield redevelopment.
